```c
#include <stdio.h>

int main(){
float W,H;
printf("Enter the Height of Rectancle: ");
scanf("%f", &H);
printf("\nEnter the Width of Rectangle: ");
scanf("%f", &W);
printf("PERIMETER: %.2f units",(H*2)+(W*2));
printf("\nAREA: %.2f square units", H*W);
return 0;
}
```
